The Operation Tech Warrior mission is to:

Provide Air Force personnel who have limited or no operational assignment experience with an intense FIELD, MOBILITY, and COMBAT SKILLS IMMERSION opportunity.

Provide an opportunity for TESTING, EXPERIMENTATION, DATA COLLECTION, INSERTION, and to otherwise SHOWCASE/DEMONSTRATE state-of-the-art warfighting technologies in a fully functioning operational environment.

WARRIOR SQUADRON OPPORTUNITIES

During the ten-day immersion event, Air Force members participate in intense and focused training lead by a cadre of experienced operators in areas including:

- Bare Base Construction
- Field Operations/Command and Control
- Combat First Aid and Self Aid Buddy Care
- Rescue Operations
- Perimeter Defense
- Land Navigation and Orienteering
- Basic Weapons Familiarization
- M-Series Vehicle Driving/Convoy Ops/IEDs
- NBC Operations
- Disaster Response
- Mounted and Dismounted Combat Tactics

The event will culminate in a three-day Capstone Field Training Event (FTX) with integrated technology demonstrations and testing on 24 - 26 Sep 2018.

Trainees participate in operational vignettes while technologists demonstrate the operational utility of the various Air Force SBIR/STTR and AFRL technologies.

FTX capstone will use all the skills learned during the immersion training and will be in three specific focus areas:

- Combat Rescue
- Disaster Response
- Airbase Defense

Warrior Squadron....provides military and civilian personnel with an emersion and knowledge gain opportunity in a full operational field exercise. If you are looking to experience FIELD, MOBILITY, and COMBAT SKILLS TRAINING in an expertly guided familiarization environment then Warrior Squadron is perfect for you!

ADDITIONAL DETAILS

- TW is open to all governments persons (military and civilian), all ranks, and all levels of experience.
- TW is open to local and non-local participants. Host units are responsible for TDY costs and orders to Fairborn (WPAFB), Ohio area.
- TW “Warrior Squadron” participants will be staying in bare base field conditions during the 10 day event.
- TW is not intended to be “competency training” but rather an immersion and familiarization event…no previous experience is required or necessary.
- TW does involve a certain degree of physical activity and a reasonable level of fitness is required to fully participate in all the schedules activities. However, we can accommodate physical limitations or special needs…feel free to contact us for options.
- Although the primary task for “Warrior Squadron” is the operational immersion training, participants will also get the opportunity to see and “use” advanced technology prototypes as part of the FTX capstone.
